

DELIA MEMORIAL SCHOOL (BROADWAY)

11 September 2009

Dear Parents / Guardians,

Please note that there has been one confirmed H1N1 case in our school. The student concerned has already been discharged and are recovering at home.

After consulting the Health Department of Hong Kong, they advise us that classes should be held as usual at the moment. They also advise us, teachers, parents and students to note the following in order to fight the pandemic, we should all:

- Be hygienic: wash hands frequently; cover cough and sneezes; keep the environment clean and maintain good ventilation; avoid visiting crowded or poorly-ventilated places.
- Be responsible: if influenza-like symptoms develop, put on a mask and seek medical attention as soon as possible; stay home, avoid contact with others, do not go to work or school, and defer trips.
- Be vigilant: pay attention to advice and guidelines issued by the Government

I would be grateful if we can all check our temperature before coming to school everyday. Please also note the announcement from our school website at www.deliabw.edu.hk for newest information.

Dr. Chan KP
