

Singapore Study Tour

From 2nd to 5th July, a group of 36 S.5 students and 4 teachers joined an educational journey to Singapore, aiming to explore multiculturalism, ethnic harmony, and advancements in science, technology, and sustainable development. The tour commenced with their assembly at Hong Kong International Airport and a subsequent flight to Singapore. Upon arrival, the group's itinerary included visits to the Singapore City Gallery and Chinatown, culminating in a delightful local cuisine experience at Lau Pa Sat.

On the second day was marked by excursions to iconic landmarks such as Gardens by the Bay and Merlion Park, as well as the Sustainable Singapore Gallery, enriching the students' understanding of environmental sustainability practices.

On the third day, the highlights were the interactive exhibits at the Singapore Science Museum and the thrilling attractions at Universal Studios, providing both educational insights and entertainment.

The final day offered an in-depth look at Singapore's innovative water treatment process at NEWater, before concluding the trip with souvenir shopping at Changi Airport. This study tour not only broadened the students' horizons in terms of cultural diversity and scientific knowledge but also provided a first-hand experience of Singapore's commitment to sustainability and technological progress.
