OPEN DAY / INFO DAY

# Visual Arts
# Subject Taster

Look closely. Think deeply. Create boldly.

VA Room
3rd Floor

ONE ARTWORK. FOUR CREATIVE EXPERIENCES.

## Experience how Visual Arts learning works.

Follow one artwork through three ways of thinking—then use your ideas to create an AI-generated image.

Look → Think → Create

## Your Colour Detective Journey

Start with what you see. End with something you create.

1

### Describe

What colours can you see?

Name, locate and compare colours.

2

### Analyse

How do the colours work together?

Explore contrast, balance and feelings.

3

### Interpret

What might the colours suggest?

Build ideas with visual evidence.

4

### Create

Turn ideas into an image.

Make creative choices with AI.

## Choose. Combine. Create.

Pick one card from each category. Your three choices become the starting point for an AI image.

**Character**
Who is in your image?
CHOOSE A CARD

**Setting**
Where does it happen?
CHOOSE A CARD

**Mood**
How should it feel?
CHOOSE A CARD

**Choose 3 cards: Character + Setting + Mood = Your AI Image**

**Come and experience Visual Arts.**
See how observation, discussion and technology can support creative learning.
